- ☐ Action requires an appropriation increase to the Operating Budget
- ☐ Action provides increased revenue for appropriation increase
- ☐ Action requires use of contingency or reserves
- ☐ Other financial impact (Explain):

☐ Request provided to the Budget Office when provided to the Committee Coordinator

Background/Supporting Information:

Project/Scope

- The reasons for the reconstruction of this street are: to reconstruct pavement that is in poor condition (built in 1957 and 1964 with a PCI rating of 66), replace curb and gutter that has deteriorated, and to correct drainage problems.

- The proposed roadway will carry two way traffic (one lane each direction) and a parking lane on both the north and south sides of East 38th Street. The proposed layout will also create a four and a half foot boulevard in residential areas. (Please see attached layout).
- Public Works staff has worked with SENA (Standish Ericsson Neighborhood Association), the neighborhood, and local businesses to complete Layout #2.
- At a future meeting, we will return to your committee to obtain project approval, conduct an assessment hearing, and obtain authorization to proceed with the work.

Schedule, Costs and Funding

- The construction of this project is scheduled for 2003 and will be coordinated with proposed LRT work.
- The estimated cost of this project is \$2,711,000, of which \$1,783,000 will be funded with MSA (Municipal State Aid) funds, \$522,000 will be funded by NDB (Net Debt Bonds), and \$406,000 will be funded by ASSMB (Assessment Bonds).

The purpose of this action is to obtain Council Approval for Layout #2.

Attachment 1 - Layout #2, revised January 31, 2003 for reconstruction of East 38th St from 23rd Ave S to 30th Ave S (2 pages).

C: Council Member Gary Schiff, Ward 9
 Suzette Hjermstad, Public Works – Special Assessments

T&PW - Your Committee approves Layout #2, revised January 31, 2003 for reconstruction of East 38th Street from 23rd Avenue South to 30th Avenue South.
